

# Examination order form

---

Dear Customer,

you can easily place an order with us by filling out our research request directly on the PC. [Click here.](#)

If you're not familiar with our electronic form, use our Fill-in Helper, which explains the different areas and provides guidance on the required sample volume and sample material. [Click here!](#)

So you can easily and comfortably require our services. We conduct the investigations state-of-the-art and on schedule.

# Examination order form

## Instructions for completing the delivery and examination order

### Address area

Please fill in the address block at the top of the page, your address and possibly a different billing address.

Please tick if you supply the animals with us or whether we should collect them from you. Please enter dates for collection by us or by sending you so that we can schedule the arrival of the animals.

### Selection of the requested examinations

Please give animal or sample ID names in the the second form field and select each of the required examinations. The listed studies are described below.

#### Package FELASA small

includes small serology, microbiology, parasitology, pathology.

#### Package FELASA large

includes large serology, microbiology, parasitology, pathology.

#### Serology small profile

includes MHV, MVM, MPV, EDIM, SENDAI, GDVII, M. pulmonis, PVM, C. piliforme (required serum volume: 60µl)

#### Serology large profile

includes MHV, MVM, MPV, EDIM, SENDAI, GDVII, M. pulmonis, PVM, C. piliforme, LCMV, MAD type 1FL&2 K87, Ectro, MCMV, Reo3 (requested serum volume: 100µl)

#### Parasitology

For parasitology fecal sample, anal-tape imprints on slides or fur-tape samples on slides are required.

#### Pathology

For the pathology a necropsy is required.

#### Mikrobiology

For microbiology organ smears are required. When sending in organ smears please use smear instruments with transport medium.

#### Helicobacter

For the examination for Helicobacter intestinal tissue is required as test material. In feces, the results are limited because the pathogen concentration may be below the detection limit.

### Single / Special Investigations

Among individual / special investigations extra examinations can be requested, which are not included in the list.

### Additional information

Because we are committed to GenTAufzV to document the work with genetically modified animals, please provide us in this case the GVO documentation together with the order. Otherwise, check the box that no genetically modified animals will be sent.

## Examination order form

Then please tick how you wish to receive your results, electronically or by mail.

Below, under 'additional remarks' you can tell us more information that you deem important.

Now print the form and fax it to us at the number 06734 - 911 222.
