

## Press release

Wendelsheim 2 March 2011

### **mfd diagnostics GmbH exhibits together with Across Barriers GmbH at the annual meeting DGPT 2011 in Frankfurt / Main**

The 77th Annual Meeting of the Society for Experimental and Clinical Pharmacology and Toxicology is held at the Campus Westend of Goethe University in Frankfurt am Main from 30 March to 1 April 2011. Lectures and poster presentations on the subject Pharmacology, Clinical Pharmacology and Toxicology are given in the Lecture Hall. In addition, a junior symposium and a symposium will be held on the benefit evaluation of drugs.

Mfd Diagnostics will present itself together with the Saarbrücken Company Across Barriers as partner for biomedical research at the annual meeting. With their cooperation, both companies offer a complete package for the pharmaceutical industry, which includes the entire preclinical development and characterization of new drugs to application in vivo.

"On the DGPT annual meeting, we wish to highlight in particular our shared capacity in the area of services for biomedical research," says Simone Maurer, Managing Director of the mfd Diagnostics GmbH.

#### **Additional Information**

Company profile of mfd Diagnostics GmbH

MFD stands for Models, Facts, Dates. The company was founded out of the University of Mainz in 2004 and offers complete services to the health monitoring of laboratory animals and contract research for biomedicine. The team is formed by professionals with extensive experience in animal husbandry and breeding, as well as in diagnostics, pharmacology and pathology. Particular attention is paid on individual consultation and service-orientation.

Company profile of Across Barriers GmbH

Across Barriers GmbH, an international operating contract research company, offers a wide range of services in the fields of preclinical development, biopharmaceutics, (bio-) analytical and formulation development. We maintain successful partnerships with companies of different sizes in different areas of pharmaceutical, cosmetic and chemical industries.
